

Times Tables

Before we start our mixed times tables in our Mathletes tests, we'll be practising them in small chunks as some revision. These should be familiar as you have been practising them throughout LKS2. There may be some you find easier or trickier than others and if you would like some extra help to practise them then please just ask! You can also find them on Maths Shed. We understand lots of you will already be confident in your times tables – we encourage you to use this time to brush up on your speed of recall!

Tests will consist of 30 questions randomly selected from that week's times tables. Children will have 4 minutes to answer.
